The enemy of mankind uses the lie as part of their arsenal. The true journalists job is to see past the lies and report the truth.

We must wade through the lies on their side of the conversation; The faked history, biased paid for science, blatant government propaganda, so called experts, bought-off opinions, and the mainstream media propaganda gaslighting.

Subscribe

To obtain the truth we must also sift through the lies and liars planted on our side of the conversation. Cowardly pathetic spies, that hide among our ranks of true journalists and freedom fighters. The enemy that lurks within.

They are the feds in disguise, the limited hangout crew and fake alternative media personalities.

These snakes in our grass leak just enough of the truth for you to think they are on our side , then steer the conversation off track or re-enforce other lies elsewhere. This strategy is very satanic.

Take Elon Musk For Example:

Since purchasing the social media platform Twitter, Musk has gained trust and admiration partly due to his perceived stance on freedom of speech and has been regarded as one of the “good guys. An article published here in the Expose has shown that this stance is all a bit of a farce and in fact, Musk’s X platform is guilty of censoring speech that violates his policy of what he deems to be “hateful conduct” and *that* is not dissimilar to the Irish “hate bill” that he seemingly advocates against.

Nevertheless, many are still under the impression that Musk is on the side of the people and has our best interests at heart, and according to Richard Willet, even “The Alternative Media have jumped on the Elon Musk bandwagon” when the reasons to be very cautious are glaringly obvious. From Technocracy Inc to Microsoft’s Patent 060606 it all Neuralinks together.”

Richard has written the well-researched article republished below to highlight the reasons to be very cautious before also jumping on the Elon Musk bandwagon.

From Musk Till’ It Dawns

The sorry state of the fake alternative media and Messiah Musk

Richard Willet

Everyone has a limit and we all get worn out and tired during whatever battle you choose to fight in your day to day life.

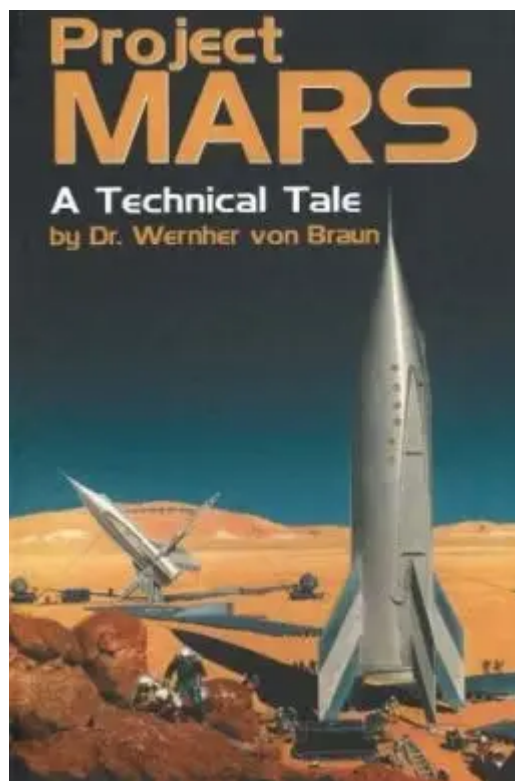

So I guess it is no surprise that many in the so-called “Alternative Media” have in recent years searched for a saviour to hook their own wagon to. First, we had the Q and Q-Anon movements preaching that Christian Zionist and friend of both the Rothschilds and the tunnel-digging Messianic Cult Chabad Lubavitch, **Donald Trump** was galloping into town with his “White Hats” to save the day and then “Drain the swamp”.

When this did not happen then those who were unfortunately caught up in the snare of the **January 6th psyop** were left with a giant Messianic-sized hole to plug.

Hair Plugs and Mars

With the throne now vacated (*at least for another 4 years, leaving enough time for Biden to bring the US to its knees*) a need for an alternative media saviour was born.

As the Sun-Set on the dusty town of “**COME SAVEME**”, in sauntered the new Messiah son of Joseph, **Elon Musk**. Riding his red heifer with promises to help build a third temple and annex Earth to the 5th Planet Mars, Elon had now arrived. Just as Nazi SS Scientist Warner Von Braun predicted in his novel ‘**Project Mars**’.

PROJECT MARS BOOK COVER

The character in the Van Braun’s book who took humans to Mars was indeed named Elon. In much the same way that Donald Trump (Drumpf) is connected to a fictional novel via his Son who is perhaps named after the ‘**Adventures of Little Baron Trump**’ A series of children’s books that tell the tale of Little Baron’s magical trips around the world meeting all sorts of “new races” including a “weird underground civilisations”.

A later Cover of Little Baron Trump Books

The novels recount the adventures of the German boy Wilhelm Heinrich Sebastian Von Troomp, who goes by "Baron Trump", as he discovers weird underground civilizations, offends the natives, flees from his entanglements with local women, and repeats this pattern until arriving back home at Castle Trump.

Perhaps those underground civilisations used Elon Musk's Boring Company to create those underground cities?!! (a joke of course but it does all connect).

But as David Icke would say.....Just a coincidence, nothing to worry about!

The backstory of Elon Musk has been covered in depth for well over two decades now so I won't do that here, but I feel a couple of notable points should be highlighted here for context.

First off Elon Musk did not just appear on the scene as a technical wiz kid who sellotaped space rockets together in his mother's garage. As with Bill Gates, he was very much groomed for this role his entire life. His grandfather was a founding member of a Technocratic Cult called 'Technocracy Inc' whose core aim was to replace the monetary system with an **"Energy theory of value"**. This is Orwellian speak for a system where **YOUR ENERGY** would be valued on how much of it was required to produce a product.

Remember you ARE ENERGY – The Original FREE ENERGY

Technocracy Inc.'s prescriptive program had economic, political and geopolitical elements. At the core was a shift from the price system to what Scott called "an energy theory of value", in which goods and services were to be valued based not on money but in terms of the energy inputs required to produce them.

Let's combine this concept with the technology of a **Microsoft** patent eerily numbered 060606. This patent aims to covert human energy into mining for crypto currency on a points-based (compliance) based system. So you would be assigned a task and once that task was complete you would be rewarded with cryptocurrency.

[EN] CRYPTOCURRENCY SYSTEM USING BODY ACTIVITY DATA

[FR] SYSTÈME DE CRYPTOMONNAIE UTILISANT DES DONNÉES D'ACTIVITÉ CORPORELLE

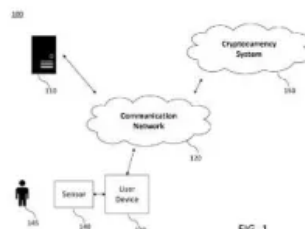

FIG. 1

Zusammenfassung

[EN]

Human body activity associated with a task provided to a user may be used in a mining process of a cryptocurrency system. A server may provide a task to a device of a user which is communicatively coupled to the server. A sensor communicatively coupled to or comprised in the device of the user may sense body activity of the user. Body activity data may be generated based on the sensed body activity of the user. The cryptocurrency system communicatively coupled to the device of the user may verify if the body activity data satisfies one or more conditions set by the cryptocurrency system, and award cryptocurrency to the user whose body activity data is verified.

So...

Like a rat on a wheel, you would be **rewarded** Cryptocurrency for completing tasks assigned to you individually. This could well be telepathically sent directly to you via a Brain chip of some sort much like the one Elon Musk's Neuralink has just "successfully" implanted into the first human brain.

What we clearly have here is the potential for a theoretic system proposed by **Technocracy Inc to be** implemented via a combination of technology and patents by **Elon Musk and Bill Gates companies**.

To add to this please keep it in the back of your mind (where they want a chip put in) that Elon Musk's grandfather was a Founding member of the (and I think it fair to say) Transhumanist Cult Technocracy Inc. and Bill Gates father was the head of Eugenics Cult Planned Parenthood.

Who founded Planned Parenthood?

Planned Parenthood was founded by Margaret Sanger, a nurse who made it her life's mission to bring birth control into the mainstream of society. In 1916, along with her sister Ethel Byrne and activist Fania Mindell, she opened America's first "birth control clinic" in Brooklyn, New York. That clinic was shut down days later for violating existing federal law.

Margaret Sanger founded Planned Parenthood.

Why does it often lead back to Brooklyn ?

Defending Their Messiah

Now this short article is barely scratching the surface of why I believe the alternative media should be questioning everything that Elon Musk says and Tweets.

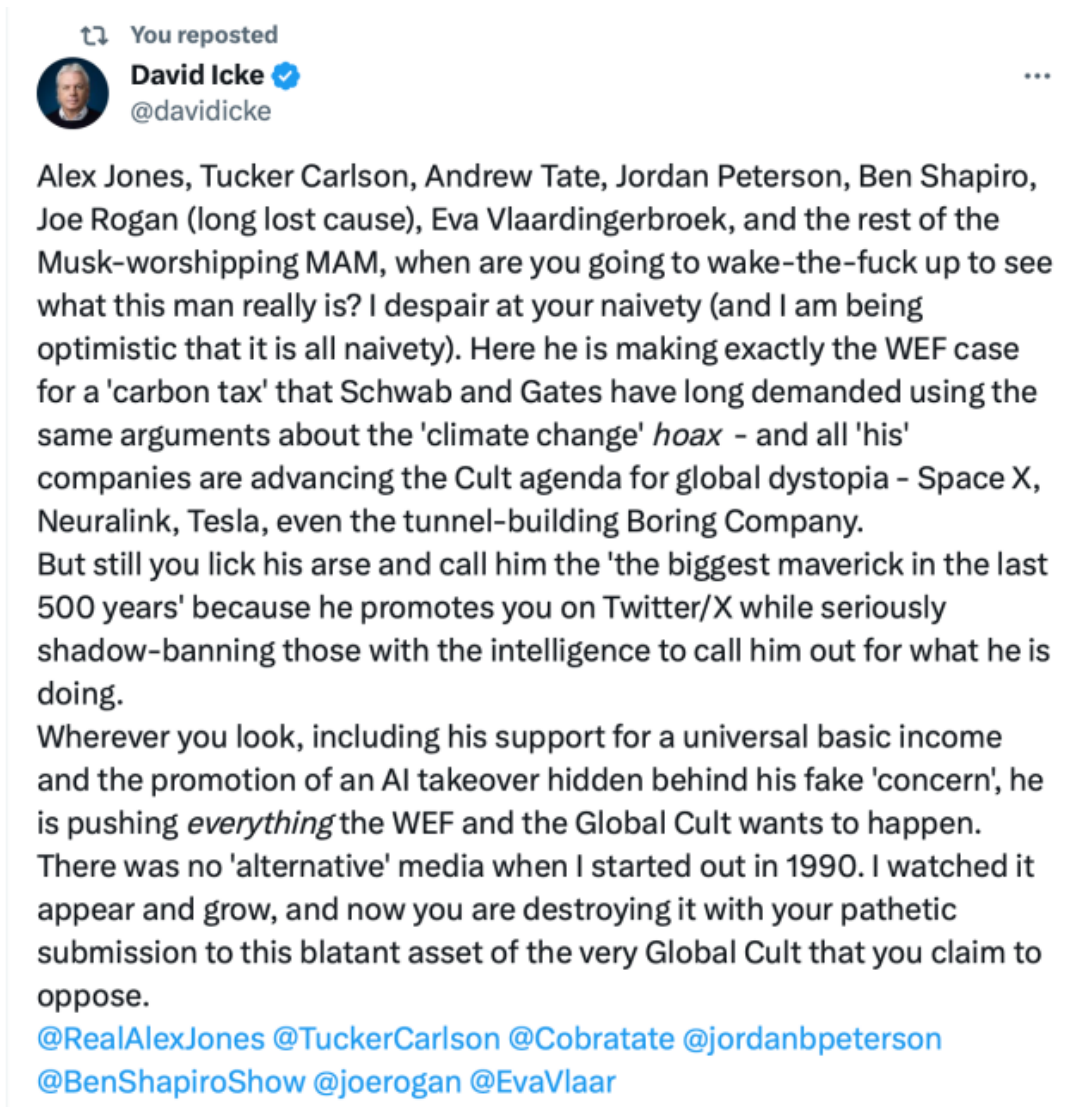

So it is disappointing to see the likes of Alex Jones jumping on the Musk band wagon and even repeatedly calling him a "Genius" whilst on a recent X Spaces. It was cringe-worthy at best and perhaps the final straw in why the likes of Alex Jones, Andrew Tate, Russell Brand, Tucker Carlson, and Joe Rogan need to be questioned on their absurd alliance with Technocrats and Transhumanists whom they *claim to be fighting against*.

Actions indeed speak louder than Tweets.....

David Icke is someone I have had the pleasure of getting to know and working with for the past five years, whilst being a founding content creator for **Jaymie Ickes Ickonic**

Platform.

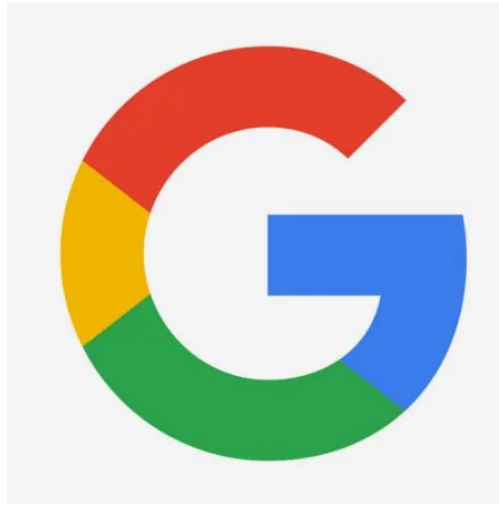

So I know how frustrating it must be for David as someone who has been at the forefront of this research for 30-plus years to see the likes of Alex Jones jumping onboard the Musk train.

The sad fact is that these guys appear to be circling the wagons and pulling in many genuine researchers and truth seekers into their abyss of nonsense. A Black Cubed shaped hole where the message is to follow my leader and drink down gallons of cognitive dissonance washed down with a spoon full of word salad.

Such as **Bret Weinstein** , a guy whose Dark Horse Podcast has miraculously reached a large audience since it was started in 2019 around the time the Covid Scam kicked off. He has amassed a decent audience whilst he clearly does not understand the basic

principle that Google is an Alphabet Agent and a DARPA military tool. Even the Google Logo is a symbol of the Noahide Laws, with all of its Rainbow colours, such is the case with the logo for Agenda 2030.

Notice this Logo is the Ourobors with a Break in the circle

Regarding Joe Rogan, David Icke asks:

“Why would someone who is a ‘threat to the system’ be paid \$250 million BY the system to broadcast on mainstream Internet platforms OWNED by the system?”

Because, David, “the system” isn’t a coherent whole. It is an emergent property made up of factions that can be played against each other.

Spotify is competing against Google and X, which puts at cross purposes with the WHO, BMGF and DNC, etc. In other words, we just won a significant victory, though some will insist on seeing it as a defeat.

David Icke ✓ @davidicke · Feb 3

Why would someone who is a ‘threat to the system’ be paid \$250 million BY the system to broadcast on mainstream Internet platforms OWNED by the system? The naivety is shocking. So many who think they are 'awake' are really still in a coma.

'Joe Rogan signs new Spotify deal 'worth...

For someone as new to this information as Bret to think he knows more than researchers such as David about these topics is both absurd and egotistical. A deep dive into Bret is on the cards for myself in the near future.

Let’s take a quick look at his statement that “Spotify is completing **AGAINST** Goole and X and their promotion of WHO, BMGF and DNC agendas”. (*BMGF stands for Bill and Melinda Gates Foundation*)

Well, to start off with the three companies are not comparable in any fashion. Google is a DARPA-created Alphabet agent military-grade tool and X is a Saudi funding social media DATA gathering and narrative control platform. They are not comparable in any way in their functions and purposes. Spotify is perhaps more comparable to X but that’s a stretch when they deal with entirely different media at their core.

Now let’s look at the funding as its always interesting when you follow the money, because no matter where you look all roads seem to lead back to BlackRock (Satanic

symbology) and Vanguard.

The largest shareholder in **Spotify** is said to be **Tencent Holdings**.

Name	Equities	%
TENCENT HOLDINGS LIMITED 8.605 %	16,631,969	8.605 %
Daniel Ek 7.501 %	14,499,407	7.501 %
Schroder Investment Management Ltd. 4.734 %	9,150,597	4.734 %
T Rowe Price Associates, Inc. (13F Subfiler) 4.036 %	7,800,623	4.036 %
6 more rows		

Two of the largest shareholders in **Tencent Holdings** are held by shadow clients that purchased through **BlackRock** and **Vanguard**.

Shareholders				
Tencent Holdings Ltd. (KYG875721634)				
Name	Equities	%	Valuation	
 PROSUS N.V.	2,377,002,100	25.00 %	89 375 M \$	
Hua Teng Ma	804,859,700	8.464 %	30 263 M \$	
 The Vanguard Group, Inc.	243,034,485	2.556 %	9 138 M \$	
 Norges Bank Investment Management	88,385,693	0.9294 %	3 323 M \$

 APG Asset Management NV	35,514,014	0.3735 %	1 335 M \$	

Of course the public are not privy to who exactly holds those shares through BlackRock and Vanguard (I call them Shadow Clients) but we do know that the shares in both BlackRock and Vanguard themselves are held by....well themselves.

So yes Bret it is all linked and it goes way above Elon Musk's expensive hair plugs into infinity and beyond.

Here are the top 5 Share Holders in Elon Musk Tesla (29th January 2024)

1. The Vanguard Group

The world's second-largest asset management company owned 225.94 million shares of Tesla, accounting for nearly 7% of Tesla's stock as of September 30, 2023, according to [Nasdaq](#). It was up from 217.85 million as of [31 March 2023](#).

Unlike other asset management firms, the Pennsylvania-based company is not owned by shareholders. Instead, investors who put their money in the company's fund, own it. As of April 2023, Vanguard had \$8.2 trillion of assets under management (AUM), according to [Advratings](#).

2. Blackrock

As of the end of September 2023, Blackrock held 186.65 million shares in Tesla, making up 5.8% of Tesla's outstanding shares.

The New York-based company is the world's largest asset management firm, managing \$9.1 trillion in assets under its belt, according to [Advratings](#). It has a market capitalization of \$116.91 billion as of January 29, 2023.

3. State Street Corp

The [Massachusetts-based company](#) (NYSE: STT) is one of the world's leading asset managers, with \$3.7 trillion in assets under management (AUM) and \$40 trillion in assets under custody as of 30 September 2023.

As of September 30, 2023, State Street Corporation owned 104.86 million of Tesla's shares valued at \$19.21 billion, making it Tesla's third-largest institutional shareholder, according to [Nasdaq's data](#). State Street Corp. holds 3.3% of Tesla's outstanding stock.

4. Geode Capital Management

[Geode Capital Management](#) is Tesla's fourth-largest institutional shareholder, with 53.87 million shares valued at \$9.87 billion, accounting for 1.7% of Tesla's outstanding shares.

Founded in 2001, the Massachusetts-based asset management firm has \$1 billion in AUM.

Now one could make the argument that Tesla is a separate corporation from X which is what Bret Weinstein was commenting on. But you do not need to be a genius to understand that if large investment firms and their shadow clients are upset with Musk they could soon wobble to X boat but pulling funds from his other companies such as Tesla.

There's No Place In This Here Town For Truth

Before we saddle up and ride off into the Sun-Set and onto the next town, I think it is important to cover one more piece of information that shows that this is indeed all connected, it may be messy and it may be full of conflicts, Ego's, Weird beliefs and in fighting, but in the end it is all connected.

Riddle Me This: Why is Elon Musk attending promotional photo opportunities with the likes of the genocidal Netanyahu in Israel and Benjamin's manic buddy Ben Shapiro at Nazi Prison camps (Nazism and Ultra Zionism are one and the same) whilst simultaneously attending sporting events in Qatar with representatives of Saudi Royalty and the Chabad Lubavitch son in law of Donald Trump?

Elon Musk was photographed with the CEO of Qatar's sovereign wealth fund hours before asking followers if he should quit as Twitter boss

We know major purchases of land have been bankrolled by Saudi Royalty and Qatar National Funds/Sovereign Wealth.

Are Islam and Ultra Zionist Israel not supposed to be at war over the treatment of Palestinians in Gaza as well as both claiming the rights to a temple for their individual faiths on Temple Mount?

Could it be that at the very top this is all just theatre?

Are the West being pitted against the East in a mutually destructive war (Leviathan vs The Behemoth) that will leave only the 600,000 points of light alive for their transhumanist World To Come?

Be careful what Messiah you choose to follow...there's a bunch of cowboys out there.

Remember to do your own research and come to your own conclusions.
